Adam – FYI. This just came through in the invite for the 9.24 meeting Dan will attend at Warm Springs. You should review this report out and discuss with Alyssa before your Tribal Council update the next day – the summary does not identify expected delays in meeting the timelines under the SDWA orders.

In addition to a status update on the Emergency Order, the summary includes a status update on the wastewater infrastructure (Ray – thought you would be interested here).

Thanks,

Peter
